

Leave XM alone! The government sticks it's nose in too much as it is. Quit listening to the lobbyists. As a student of the law these companies have to legal basis to stop XM from providing these services to the people who SUBSCRIBE to XM. We are sick of the regular radio services that is why we join XM. I can assure you this letter is going to be forwarded to every one of my Congressional representatives and the President himself.  
Sincerely,

John Robinson  
Tifton, GA
